Panel
Trend Graph / Data Acquisition / Scripting

Track up to 6 variables in one trend graph. Acquire and store data. Perform statistical process control. Scripting allows Logical and Mathematical Operations on PLC data.

## Dazzling 3D Graphics

Operator Friendly

Toughpanels have the best looking pre-built as well as multi-state bitmap objects.

Blazing Fast Response to Touch input

Response time of 0.75 sec to touch inputs even for complex screens. Operators have almost immediate response for a more satisfying and efficient experience

Real Time Animation

Give machine operators a better understanding of the machine process by animating the machine's motion or process on the screen
NEMA 4X, IP66

Exclusive

Outdoor Readable Panels

Toughpanels are available in 1000+ nits outdoor models

Drop-in, Plug-n-Play Replacement for those Obsolete and feature-limited Touchpanels

Toughpanels offer Drop-in replacement for Allen Bradley Panelview and Panelview Plus, as well as General Electric's Quickpanels (also Proface GP Series). Program conversion cost is minimal.
